1.0. Introduction

ACR1281S-C1 DualBoost II is a dual interface reader that can access any contact and contactless smart cards following the ISO 7816 and ISO 14443 standards. ACR1281S-C1 enables one to conventionally integrate separate and independent applications for contact and contactless technologies into one device and one card.

The DualBoost II makes use of serial RS-232 protocol to communicate with the PC or host. It also makes use of high-speed communication for contactless cards at a maximum of 848 Kbps, which makes it suitable for highly demanding applications. It also provides intelligent support for hybrid and combi cards, such that it detects a contactless card even if it is inserted in the contact card slot. Lastly, it has a built-in ISO 7816 Compliant Class A SAM (Secure Access Module) slot which can be used together with a SAM card for added security in both contact and contactless applications.
2.0. Features

- Serial RS-232 Interface: Baud Rate = 9.6 Kbps (default), 19.2 Kbps, 38.4 Kbps, 57.6 Kbps, 115.2 Kbps, 230.4 Kbps
- USB interface for power supply
- CCID-like frame format (binary format)
- Smart Card Reader:
  - Contactless Interface:
    - Read/Write speed of up to 848 Kbps
    - Built-in antenna for contactless tag access, with card reading distance of up to 50 mm (depending on tag type)
    - Supports ISO 14443 Part 4 Type A and B cards and MIFARE® series
    - Built-in anti-collision feature (only one tag is accessed at any time)
    - Supports extended APDU (Max. 64 KB)
  - Contact Card Interface:
    - One full sized contact card slot
    - Supports ISO 7816 Class A, B and C (5 V, 3 V and 1.8 V)
    - Supports microprocessor cards with T=0 or T=1 protocol
    - Supports memory cards
  - SAM Interface
    - One SAM slot
    - Supports ISO 7816 Class A SAM cards
- Built-in Peripherals:
  - Two user-controllable LEDs
  - User-controllable buzzer
- USB Firmware Upgradability
- Compliant with the following standards:
  - ISO 14443
  - ISO 7816
  - CE
  - FCC
  - RoHS 2
3.0. Typical Applications

- e-Government
- e-Banking and e-Payment
- e-Healthcare
- Transportation
- Network Security
- Access Control
- Loyalty Program
4.0. Technical Specifications

Serial Interface
Power Source ......................... From USB
Speed ..................................... 9.6 Kbps (default), 19.2 Kbps, 38.4 Kbps, 57.6 Kbps, 115.2 Kbps, 230.4 Kbps
Supply Voltage .......................... Regulated 5 V DC
Supply Current .......................... 200 mA

Contactless Smart Card Interface
Standard .................................. ISO 14443 A & B Parts 1-4
Protocol .................................... ISO 14443 T=CL for ISO 14443-4 compliant cards and T=CL Emulation for
.............................................................. MIFARE series
Smart Card Read/Write Speed ...... 106 Kbps, 212 Kbps, 424 Kbps, 848 Kbps
Operating Frequency ................. 13.56 MHz
Operating Distance .................... Up to 50 mm (depends on card type)
Antenna Size ............................. 65 mm x 60 mm

Contact Smart Card Interface
Standard .................................. ISO 7816 Parts 1-3, Class A, B, C (5 V, 3 V, 1.8 V), T=0 and T=1
Supply Current .......................... Max. 60 mA
Smart Card Read/Write Speed ...... 9.6 Kbps – 344 Kbps
Short Circuit Protection .............. +5 V/GND on all pins
CLK Frequency ........................... 4.80 MHz
Card Connector .......................... Landing
Card Insertion Cycles ................. Min. 200,000

SAM Card Interface
Standard .................................. ISO 7816, Class A (5 V)
Protocol .................................... T=0 and T=1 protocol

Built-in Peripherals
Buzzer ..................................... Monotone
LEDs ....................................... Red and Green

Physical Specifications
Dimensions .............................. 120.5 mm (L) x 72.0 mm (W) x 20.4 mm (H)
Weight ..................................... 150 g
Color ....................................... Black
Cable Length ............................. 1.5 m

Operating Conditions
Temperature ............................. 0 °C - 50 °C
Humidity .................................. Max. 90% (non-condensing)
MTBF ..................................... 500,000 hrs

Certifications/Compliance
ISO 14443, ISO 7816, CE, FCC, RoHS 2
Device Driver Operating System Support
