- **CONVENIENT**
Modern, compact casing design for easy and ergonomic operation in limited-space environments
- **CONVERGENT**
Features contactless and NFC technologies for use with mixed credential populations and form factors
- **INTEROPERABLE**
Supports major card ICs, standards and technologies in just one device
- **FAST**
Transaction time optimized with 848 kbs support in ISO/IEC 14443 for maximum end-user acceptance
- **READY TO USE**
Driver support for all major PC operating systems

Identiv's uTrust 3700 F is the ideal combination of contactless and near field communication (NFC) technologies in just one single device. Featuring 13.56 MHz contactless technology and NFC, this PC-linked reader supports end-user environments where virtually all kinds of contactless credentials are being used, even in mixed populations.

With its all-in-one concept, the uTrust 3700 F enables a smooth transition from well-established traditional technologies into emerging NFC applications, supporting new business. It represents the perfect mix between modern, stylish design and the same ergonomic operation of any credential form factor, like ID-1 cards, tokens or NFC-enabled smart phones. The Identiv driver platform, as well as the Windows® Plug-and-Play driver support, allow seamless integration into any end-user environment with very little or no administration. The uTrust 3700 F can even be used on Android- based systems.

With uTrust 3700 F, the end user experiences convenience, transaction-time efficiency, security, flexibility and full NFC capability for applications such as network log-on, secure web-based transactions and even NFC-based customer loyalty programs. The product also has been designed for secure in-field firmware upgrades and great reliability, providing a perfect return on investment.

Optional Accessory
